*November 5, 2014*

**Farmingville, NY** - On October 30, Supervisor Ed Romaine (left) visited the Medford home of Elizabeth Olsen (right) to present her with a compost drum that she won in a raffle at the Town's first annual Green Energy and Sustainability Fair. The event, which was held at Brookhaven Town Hall on October 25, was sponsored by the Town's Division of Waste Management and showcased both high-tech and low-tech green technologies available to residents and business owners. It featured indoor and outdoor vendor booths and displays including photovoltaic solar panels, geothermal heating systems, electric car test drives and more. In addition, "Go Green" break-off sessions were held, covering subjects from Energy Efficiency and Renewable Energy for Homes and Small Businesses, Organic Gardening and Composting.
